

MasterTax Announces New PeopleSoft Enterprise Certified Integration

Scottsdale, AZ – November 2, 2004 --- MasterTax, a leading provider of payroll tax compliance software, announces today the release of a new integration between MasterTax v. 4.4.02.00 and PeopleSoft® Enterprise Payroll for North America that has been certified by PeopleSoft.

The PeopleSoft certified integration provides PeopleSoft customers an efficient vehicle to quickly implement the payroll tax compliance capabilities of MasterTax. PeopleSoft and MasterTax customers can quickly transfer company master setup, payroll tax liability, and employee wage and worksite detail information to MasterTax. Through this data transfer and MasterTax's rules database, which contains tax rules for over 10,000 taxing jurisdictions in the United States, mutual customers have a compelling solution for scheduling, paying, balancing, and filing payroll taxes.

"With this certified integration, MasterTax has minimized the time and effort required to deploy our payroll tax solution, relative to the competition," said Bill Harris, Director of Product Development at MasterTax. "PeopleSoft is recognized as a global leader in Human Capital Management. We are very pleased that they have recognized the value of MasterTax and are excited about the opportunity to provide an integrated payroll tax software solution to our mutual customers."
